DOUGLAS P. McMULLEN, C.P.A.

JOHN F. TAYLOR, C.P.A. STEVEN C. ARENDS, C.P.A. SCOTT A. HUNTER., C.P.A. JONATHAN E. DAMHOF, C.P.A. MICHAEL D. COOL, C.P.A.

To the Mayor and City Council City of McBain, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of McBain, Michigan, as of and for the year ended April 30, 2005, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of McBain, Michigan, management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1, the City has implemented a new financial reporting model as required by the Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* as of May 1, 2004.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position, the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of McBain Michigan, as of April 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information on pages iii through xiii and 30, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of McBain, Michigan, basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and other supplementary information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section, other supplementary information and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

BAIRD, COTTER AND BISHOP, P.C.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED APRIL 30, 2005

Management's Discussion and Analysis

The management of the City of McBain, Michigan ("the City") offers this narrative overview and analysis of the financial activities of the City for the fiscal year ended April 30, 2005 for the benefit of the readers of these financial statements. This management's discussion and analysis is intended to assist the reader in focusing on significant financial issues and to provide an overview of the City's financial activity. We encourage readers to consider the information presented here in conjunction with the financial statements as a whole, which can be found in this report.

Financial Highlights

Government-Wide

❖ The assets of the City exceeded its liabilities at the close of this fiscal year by \$4,028,337 (shown as *Net Assets*), representing a decrease of \$52,278 from the previous fiscal year. Governmental Funds had an \$18,340 increase, while Business-Type activities had a \$70,618 decrease.

Fund Level Financial Highlights

- ❖ As of April 30, 2005, the governmental funds of the City of McBain reported combined ending fund balances of \$346,925, of which \$334,679 was unreserved and undesignated.
- ❖ The unreserved fund balance of the City's General Fund increased this year to \$209,864, or 78.45% of total General Fund expenditures.

Long-Term Debt

❖ The City of McBain's total debt decreased by \$57,100 during the fiscal year.

Overview of the Financial Statements

The City of McBain's financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements This report includes government-wide statements as required by GASB Statement Number 34. The *government-wide financial statements* are designed to provide a broad overview of the City's financial position. The Statement of Net Assets and the Statement of Activities are two financial statements that report information about the City as a whole, and provide measurements of long-term trends. They are presented using a method of accounting that is similar to a private-sector business.

The Statement of Net Assets (Pages 1-2) presents information on all of the City's assets and liabilities, the difference between the two being reported as the Net Assets of the City. Over

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED APRIL 30, 2005

time, increases or decreases in net assets can serve as a useful indicator of whether the financial position of the City is improving or deteriorating. An increase in net assets would indicate an improvement in financial condition. On the other hand, a consistent decrease over time in net assets may indicate a decline in the financial health of an organization.

The *Statement of Activities* (Page 3) gives information on the revenues and expenses causing the underlying change in the government's net assets during the most recent fiscal year. All changes in net assets are reported as soon as the change occurs, regardless of the timing of related cash flows.

Both of these statements distinguish functions of the City that are principally supported by property taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or most of their costs through user fees and charges (business-type activities). Governmental activities of the City include general government, public safety, major and local streets, public works, culture and recreation. Business-type activities of the City include water and sewer utility services.

Focus on Funds

Traditional users of governmental financial statements will find the Fund Financial Statements presentation more familiar. The focus has shifted, however, to Major Funds, rather than the previous focus on fund types. The City's major Governmental Funds include the General Fund, Major Street Fund, and Local Street Fund. The major Proprietary Funds include the Water Fund and Sewer Fund.

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Each fund is operated similar to a completely separate entity, with its own set of balancing accounts. The City of McBain uses fund accounting to ensure compliance with finance-related legal requirements. There are three basic types of funds: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds Many of the City's basic services are reported in the governmental funds. Governmental funds account for essentially the same functions as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. This is known as the modified accrual basis of accounting. Under this reporting system, capital items, debt payments and certain other items are treated differently than on the government-wide statements. These items are recorded in the governmental fund statements on the Statement of Revenues, Expenditures and Changes in Fund Balance as expenditures. No depreciation is recorded on capital items. The balance sheet for governmental funds does not include any capital items or long-term debt. Governmental funds for the City include the General Fund as well as the special revenue and capital project funds.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED APRIL 30, 2005

Proprietary Funds Proprietary funds account for services for which the City charges its customers for the services they are provided. These charges can be to external customers or other agencies within the City. There are two types of proprietary funds:

- Enterprise funds are used to report business-like activities of the City. These activities intend to recover the full cost of the services through the fee charged to the customers. The City has two enterprise funds, which are the Water Fund and Sewer Fund.
- Internal Service funds are the second type of proprietary funds. These funds provide services to other departments within the City. The City does not maintain any internal service funds.

Fiduciary Funds Fiduciary funds are used to account for resources held for the benefit of parties outside the government. These funds are not reflected in the government-wide financial statements because the resources of the funds are not available for supporting the City's programs. These funds are accounted for using the full accrual method of accounting, much like the Proprietary funds.

Component Units The City's financial report includes reporting on separate legal entities for which the City has some level of financial responsibility. These funds are shown in a separate column. The City's component units include the Downtown Development Authority and the Tax Increment Finance Authority.

Notes to the Financial Statements

The Notes to the Basic Financial Statements provide additional information that is essential to a complete understanding of the information provided in both the government-wide and the fund financial statements. The notes can be found beginning on Page 15 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report further presents Required Supplementary Information (RSI) that explains and supports the information presented in the financial statements. This information can be found on Page 30 of this report.

Government-Wide Financial Analysis

The Statement of Net Assets is the first statement in the Government-Wide Financial Statements section of this document. This statement is useful for providing an indicator of the City's financial position over time. The Net Assets of the City are \$4,028,337 at April 30, 2005, meaning that the City's assets were greater than its liabilities by this amount. As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. A

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED APRIL 30, 2005

comparison with the previous fiscal year will be presented in the future as that data becomes available.

City of McBain Net Assets

	Governmental			usiness-Type	Total Primary			
		Activities		Activities	Government			
Current and Other Assets	\$	360,339	\$	242,484	\$	602,823		
Capital Assets		2,149,342		1,432,905		3,582,247		
Total Assets	\$	2,509,681	\$	1,675,389	\$	4,185,070		
Current and Other Liabilities	\$	13,258	\$	13,619	\$	26,877		
Long-Term Liabilities		76,856		53,000		129,856		
Total Liabilities	\$	90,114	\$	66,619	\$	156,733		
Net Assets:								
Invested in Capital Assets								
Net of Related Debt	\$	2,072,486	\$	1,368,905	\$	3,441,391		
Restricted		0		40,053		40,053		
Unrestricted		347,081		199,812		546,893		
	\$	2,419,567	\$	1,608,770	\$	4,028,337		

The most significant portion of the City's Net Assets is the investment in capital assets (e.g. land, buildings, equipment, infrastructure, and others), less any related debt that is outstanding that the City used to acquire or construct the asset. The City has \$546,893 in unrestricted net assets. These assets represent resources that are available for appropriation.

The total net assets of the City decreased \$52,278 in this fiscal year, which is an indicator that the City experienced negative financial growth during the year. As a result, the City ended the fiscal year in slightly worse condition than when the year started.

The following table summarizes the results of the changes in the Net Assets for the City. The condensed information was derived from the Government-wide Statement of Activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED APRIL 30, 2005

Governmental Activities

The following chart details the revenue sources for the governmental activities of the City for the fiscal year ended April 30, 2005:

The most significant portion of the revenue for all governmental activities of the City of McBain comes from Charges for Services (27%). This figure includes General Fund charges to other funds and component units for labor and equipment usage.

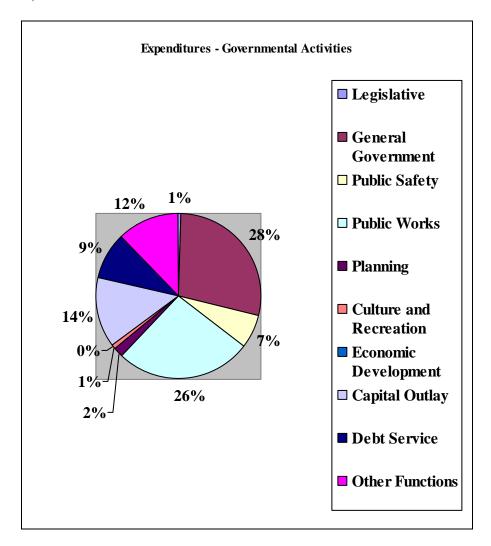

State shared revenue is collected by the State of Michigan and distributed to local governments by formula allocation of portions of the State sales tax and motor fuel and weight taxes. In 2005, the amount of state shared revenue received by the City once again trended downward, representing declining sales tax collections and discretionary reductions by the State in revenue sharing payments.

Capital Grants represents local grant dollars that the City has received for the purchase of new fire fighting equipment.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED APRIL 30, 2005

The following chart depicts expenses of the governmental activities of the City for the fiscal year ended April 30, 2005:

The City's governmental activities expenses are dominated by the General Government expenses that total 28% of total expenses. The City spent \$156,139 in FY2005 on General Government. Public Works represented the next largest expense at \$146,552, or 26% of total expenses within the governmental activities. Expenses in the Major Street Fund (\$80,542) and Local Street Fund (\$20,836) represent a majority of the Public Works expenditures.

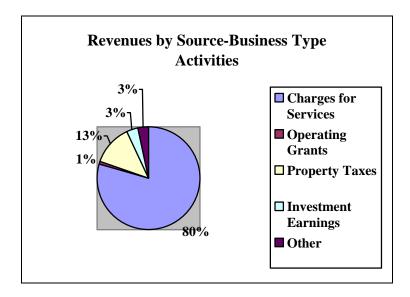

Business-Type Activities

The following charts illustrate the revenue and expense activity within the City's business-type activities. These activities accounted for a decrease of \$70,618 in the City's Net Assets, or 135% of the net decrease in the City's net assets for the fiscal year ended April 30, 2005.

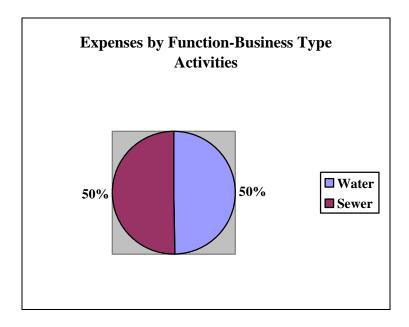

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED APRIL 30, 2005

The Business-type activities of the City include the Water Fund and Sewer Fund, which provide water and sewer utility services to City residents as well as commercial customers.

The Water and Sewer activities represent all of the business-type activities of the City.

Financial Analysis of the Government's Funds

Governmental Activities – At the completion of the City's fiscal year ended April 30, 2005, its governmental funds reported fund balances of \$346,925. Of this amount, 100% is unreserved. This amount includes \$12,246 designated for city hall equipment.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED APRIL 30, 2005

General Fund – The General Fund is the main operating fund of the City. The General Fund increased its fund balance in this fiscal year by \$16,719, bringing the balance to \$209,864. All of the General Fund's functions ended the year with expenditures below appropriated amounts.

Major Street Fund – The Major Street Fund completed \$43,316 in street improvements in this fiscal year. The fund balance of the Major Street Fund ended the year at \$31,748. This was a reduction of \$39,333 from the previous year. The City used funds accumulated from previous years in order to complete this year's projects.

Local Street Fund – The Local Street Fund completed \$4,756 in street construction and improvements in this fiscal year. The fund balance of this fund is at \$20,806.

Proprietary Funds The City's proprietary funds provide virtually the same information as the government-wide statements; however more detail may be found in the fund financial statements.

Water Fund – The Water Fund ended this fiscal year with \$116,365 in unrestricted net assets. Operating revenues increased from \$31,137, in 2004 to \$32,280, a 3.54% increase. This fund experienced an increase in interest income of \$120, or 12.9% from the previous fiscal year. The net assets of the fund decreased by \$35,356, in 2005. This fund has no long-term debt and remains in sound fiscal condition moving forward.

Sewer Fund – The Sewer Fund ended this fiscal year with \$83,447 in unrestricted net assets. Operating revenues increased from \$31,277, in 2004 to \$32,461, a 3.78% increase. The net assets of the fund decreased by \$35,262, in 2005.

Capital Asset and Debt Administration

Capital Assets. The City's investment in capital assets for the governmental and business-type activities as of April 30, 2005 amounted to \$3,582,247 (net of accumulated depreciation). Capital assets of the City include any items purchased that cost in excess of \$5,000 and have an expected useful life of over one year. The City has invested in a broad range of capital assets, as detailed below:

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED APRIL 30, 2005

City of McBain Capital Assets as of April 30, 2005

	G	Governmental	В	usiness-Type	Total Primary		
		Activities	Activities			Government	
Land and Land Improvements	\$	697,033	\$	88,703	\$	785,736	
Infrastructure		940,379		0		940,379	
Buildings		462,241		67,921		530,162	
Improvements Other Than Buildings		0		2,768,875		2,768,875	
Machinery and Equipment		892,120		122,469		1,014,589	
Total Assets	\$	2,991,773	\$	3,047,968	\$	6,039,741	
Less Accumulated Depreciation		842,431		1,615,063		2,457,494	
Fixed Assets, Net of Depreciation	\$	2,149,342	\$	1,432,905	\$	3,582,247	

Major capital asset events during FY2005 included the following:

- New mowers for the public works department at a total cost of \$26,500.
- A hazmat truck for the fire department at a total cost of \$53,165
- Street construction projects totaling \$48,081.
- A new irrigation system for the Sewer Fund at a total cost of \$33,364.

Additional information regarding the City's capital assets can be found in the Notes to Financial Statements section.

Long-Term Debt. As of April 30, 2005, the City had total bonded debt outstanding of \$64,000 which is backed by the full faith and credit of the City. The City levies 1.5 mills on all real property to help service this debt which is reported in the Sewer Fund. The City also has a note payable for the new fire truck which was purchased in 2003. The balance on that agreement was \$76,856 at April 30, 2005. The City receives annual contributions from Riverside Township to help service this debt which is due in full May 30, 2008.

Economic Outlook

The City of McBain developed a master plan in January 1990 and a Strategic Plan in September 1991. Both plans call for developing a diverse economy with emphasis on the McBain Industrial Park, the agricultural support business, the downtown district, housing, and transportation.

To this end the economic development efforts include employing an economic development director, who is an experienced professional, to work with the City, the Tax Increment Finance Authority (TIFA), and the Downtown Development Authority (DDA).

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED APRIL 30, 2005

The McBain Industrial Park contains four wood-based industries employing 150 people. They are Biewer Sawmill, Hydrolake Pole plant, Wolverine Woodworking, and the wood-fired electric generating plant, Viking Energy. Two machine shops, and a major trucking company are also located there. Plans are underway for an agricultural growing and processing center, and another wood-based manufacturing company.

The downtown area has seen the demolition of fourteen old buildings with the addition of a new grocery store, coffee and fitness center, restaurant, professional building, an enlarged McBain Grain store, an enlarged Ellens farm equipment sales and service center, two new gas service stations, and two new parking lots. Plans are underway for another new parking lot and another new professional building.

Most of these developments have been assisted in their growth by the McBain TIFA and DDA.

A major project now being conducted is an alternate energy study to determine if and how steam and hot water energy can be extracted from Viking Energy for industrial and agricultural processing purposes.

Three private apartment complexes have been developed along with a new subdivision and module home park.

A modern Stoney Corners Road all-purpose county highway has been constructed to connect McBain with the US131 freeway.

Also underway is the planned implementation of a video camera security system, which will service the main traffic and strategic locations in the city.

Contacting the City's Finance Department

This financial report is designed to provide the wide variety of users of this document with a general overview of the City's finances and demonstrate the City's accountability for the money entrusted to it. If you have any questions regarding this report or need additional financial information, please direct your requests to the City of McBain, 508 West Maple Street, McBain, MI 49657, or call us at (231) 825-2322.

<u>CITY OF MCBAIN, MICHIGAN</u> <u>GOVERNMENTAL FUNDS</u>

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES YEAR ENDED APRIL 30, 2005

Net change in Fund Balance - Total Governmental Funds	\$ (44,248)
Amounts reported for governmental activities are different because:	
Governmental funds report capital outlays as expenditures in the statement of	
activities. These costs are allocated over their estimated useful lives as	
depreciation in the statement of activities.	
Depreciation Expense	(112,062)
Capital Outlay	127,746
Repayment of principal on long-term debt is an expenditure in the governmental	
funds, but not in the statement of activities (where it is a reduction of liabilities).	47,100
Under the modified accrual basis of accounting, revenue is recognized when	
measurable and available. The entity wide statements recognize revenue when	
earned.	
Deferred Revenue at the beginning of the year	(352)
Deferred Revenue at the end of the year	 156
CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES	\$ 18,340

NOTES TO FINANCIAL STATEMENTS APRIL 30, 2005

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of McBain, Michigan, was incorporated under the laws of the State of Michigan and operates under an elected Mayor-Council form of government. As required by generally accepted accounting principles, these financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Discretely presented component units on the other hand, are reported in a separate column in the combined financial statements to emphasize they are legally separate from the primary government. Each blended and discretely presented component unit has an April 30 year end.

BLENDED COMPONENT UNITS

City of McBain Fire Department - The Fire Department of McBain, Michigan, an entity legally separate from the City, is governed by a board appointed by the City council. For financial reporting purposes, the Fire Department is reported as if it were part of the City's operations because its purpose is to provide fire protection to the citizens of the City and the townships of Riverside and Richland.

DISCRETELY PRESENTED COMPONENT UNITS

Downtown Development Authority (DDA) – The members of the governing board of the Downtown Development Authority are appointed by the McBain City council. The Authority's operational and capital budgets and bonded debt must be approved by the City council.

Tax Increment Finance Authority (TIFA) – The members of the governing board of the Tax Increment Finance Authority are appointed by the McBain City council. The Authority's operational and capital budgets and bonded debt must be approved by the City council.

Financial statements of the individual component units are included as supplemental information in the annual financial report of the City of McBain, Michigan. The component units do not issue separate financial reports.

B. Government-wide and Fund Financial Statements

During fiscal year 2005, the City adopted GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, as amended by GASB Statements No. 37 and No. 38, and applied those standards on a retroactive basis. GASB Statement No. 34 establishes standards for external financial reporting for state and local governments and requires that resources be classified for accounting and reporting purposes into the following three net asset categories.

NOTES TO FINANCIAL STATEMENTS APRIL 30, 2005

Invested in Capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, and contributors, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets which do not meet the definition of the two preceding categories. Unrestricted net assets are often designated, to indicate that management does not consider them to be available for general operations. Unrestricted net assets often have constraints on resources which are imposed by management, but can be modified or removed.

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially responsible.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The government-wide focus is more on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. The fund financial statements are similar to the financial statements presented in the previous financial reporting model.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for

NOTES TO FINANCIAL STATEMENTS APRIL 30, 2005

which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, interest and special assessments associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Sales taxes collected and held by the state at year end on behalf of the government are also recognized as revenue. All other revenue items are considered to be measurable and available only when cash is received by the government.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

The accounts of the City are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds are maintained consistent with legal and managerial requirements.

The City of McBain reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Major Street Fund* is used to account for the financial activity of the streets designated by the State of Michigan as major thoroughfares.

The *Local Street Fund* receives all local street money paid to the city by the State, accounts for all construction, maintenance, traffic services, and snow and ice control on all streets classified as local.

NOTES TO FINANCIAL STATEMENTS APRIL 30, 2005

The City of McBain reports the following major proprietary funds:

The *Water Fund and Sewer Fund* record financial activity of the water system which provides water to customers and the operations of the City's wastewater collection and treatment System. Additionally the City of McBain reports the following fund types:

The *special revenue funds* account for revenue sources that are legally restricted to expenditure for specific purposes (not including expendable trusts or major capital projects).

The *capital projects funds* account for the acquisition of capital assets or construction of major capital projects not being financed by proprietary or nonexpendable trust funds.

The *proprietary funds* are used to account for those operations that are financed and operated in a manner similar to private business or where the Council has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

Fiduciary funds are accounted for using the accrual method of accounting. Fiduciary funds account for assets held by the City in a trustee capacity or as an agent on behalf of others. Fiduciary funds are not included in the government-wide statements.

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. Agency funds are accounted for using the modified accrual basis of accounting. These funds are used to account for assets that the City holds for others in an agency capacity.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's water and sewer functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions involved. Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in

NOTES TO FINANCIAL STATEMENTS APRIL 30, 2005

connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewer Funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use the restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities and Equity

1. Deposits and Investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Investments - The City's investment policy is in compliance with state law and authorizes the City to invest in passbook savings accounts, certificates of deposit, and money market funds. The City does not have any investments other than interest bearing bank accounts.

2. Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds are offset by a fund balance reserve account in applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are shown net of an allowance for uncollectibles. Property taxes attach as an enforceable lien on the property as of the date they are levied. City and State Education taxes are levied and due July 1, and become delinquent after August 14. County and local school taxes are levied and due December 1, and become delinquent after February 14. Collections of school and county taxes and remittances of them are accounted for in the Current Tax Collection Fund. City property tax revenues are recognized when they become both measurable and available for use to finance City operations. Amounts which are not expected to be collected within sixty days are treated as deferred revenues.

The 2004 taxable valuation of the City of McBain totaled \$20,410,447, on which ad valorem taxes levied consisted of 12.4517 mills for the City of McBain operating purposes and 1.5000 mills (on real property only with a taxable valuation of \$15,376,647) for sewer debt retirement. These levies raised approximately \$254,142 for operating purposes and \$23,065 for sewer debt retirement. Portions of

NOTES TO FINANCIAL STATEMENTS APRIL 30, 2005

these taxes levied were captured by the Downtown Development Authority, and the Tax Increment Finance Authority. These amounts are recognized in the respective General Fund or Component Unit Fund financial statements as taxes receivable or as tax revenue.

3. Restricted Assets

Certain resources of the Sewer Fund which are set aside for repayment of revenue bonds are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. The "bond reserve" account is used to report resources set aside to make current debt service payments and to make up potential future deficiencies in the funds available for debt service.

4. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of proprietary fund capital assets is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period.

Property, plant and equipment of the primary government, as well as the component units are depreciated using the straight line method over the following estimated useful lives:

<u>ASSETS</u>	<u>YEARS</u>
Buildings	40-50
Building improvements	20
Public domain infrastructure	50
System infrastructure	30
Vehicles	10
Equipment	5-10

7. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets.

NOTES TO FINANCIAL STATEMENTS APRIL 30, 2005

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

5. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

6. Use of Estimates

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

- 1. Prior to April 30, the City Clerk submits to the City Council a proposed operating budget for all governmental funds for the fiscal year commencing the following May 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain taxpayer comments.
- 3. Prior to April 30, the budget is legally enacted through passage of a budget ordinance. Budgets are submitted on a line-item basis but adopted by the Council on a major function basis.
- 4. All transfers of budget amounts between functions within the General Fund and any revisions that alter the total expenditures of any fund must be approved by the City Council. General Fund expenditures may not legally exceed budgeted appropriations at the major function level. Expenditures in all other governmental funds may not exceed appropriations at the total fund level.
- 5. Formal budgetary integration is employed as a management control device during the year for all governmental fund types.
- 6. Budgets for the General, Special Revenue, Debt Service and Capital Project Funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). All appropriations lapse at year end. No budget amendments were adopted during the year.
- 7. Encumbrance accounting is not used by the City.

NOTES TO FINANCIAL STATEMENTS APRIL 30, 2005

B. Major funds with expenditures in excess of appropriations were as follows:

Major Street Fund expenditures of \$80,542 exceeded appropriations by \$30,892. This overage was funded by greater than anticipated revenues and beginning fund balance.

III. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u>

A. Deposits and Investments

Cash balances of most City funds are pooled and invested. Interest earned on the investments purchased with pooled cash is allocated back to each of the funds based on the fund's average equity balance. In addition, investments are separately held by several of the City's funds. The City's deposits and investments are all on deposit with Chemical Bank West. Other than interest bearing bank accounts, the City has no investments.

Investment rate risk. The City will minimize Interest Rate Risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by; structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; and investing operating funds primarily in interest bearing demand accounts.

Foreign currency risk. The City is not authorized to invest in investments, which have this type of risk.

Credit risk. The City minimizes Custodial Credit Risk, which is the risk of loss due to the failure of the security issuer or backer, by; limiting investments to the types of securities listed in the City's investment policy; and pre-qualifying the financial institutions, brokers/dealer, intermediaries and advisors with which the City will do business in accordance with the City's investment policy.

Concentration of credit risk. The City minimizes Concentration of Credit Risk, which is the risk of loss attributed to the magnitude of the City's deposits in a single bank, by investing in a high quality local bank.

Custodial credit risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As of April 30, 2005, \$398,313 of the City's bank balances of \$552,739 was exposed to custodial credit risk because it was uninsured and uncollateralized. As of April 30, 2005, \$194,325 of the component units' bank balances of \$359,273 was exposed to custodial credit risk because it was uninsured and uncollateralized.

NOTES TO FINANCIAL STATEMENTS APRIL 30, 2005

B. Receivables

Receivables as of year end for the government's individual major funds and component units are as follows:

		General	Water	Sewer	Component Units
Receivables	_				
Taxes and Assessments	\$	156	\$ 0	\$ 5,128	\$ 0
Accounts		1,949	1,166	1,121	0
Mortgages and Notes	_	0	0	0	892,346
Receivables	\$_	2,105	\$ 1,166	\$ 6,249	\$ 892,346

By ordinance, the City can place substantially all of its delinquent receivables on the tax rolls as a lien against real property. As a result, its uncollectible accounts are virtually nil.

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

	_	Unavailable
Delinquent property taxes receivable (General Fund)	\$	156

C. Capital Assets

	Ве	eginning					Ending
	E	Balance	Ir	ncreases	Decreases		Balance

D. Interfund Receivables, Payables and Transfers

Individual fund interfund receivable and payable balances at April 30, 2005, were:

	INT	INTERFUND		TERFUND	
<u>FUND</u>	REC	EIVABLES	PAYABLES		
General Fund	\$	13,333	\$	0	
Major Street Fund		150		3,686	
Local Street Fund		0		8,261	
Cemetery Fund		0		937	
Water Fund		0		217	
Sewer Fund		0		382	
Downtown Development Authority		2,120		0	
Tax Increment Finance Authority		0		2,120	
	\$	15,603	\$	15,603	

All remaining balances generally resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All interfund balances outstanding at April 30, 2005, are expected to be repaid within one year.

NOTES TO FINANCIAL STATEMENTS APRIL 30, 2005

Interfund Transfers as of April 30, 2005, were:	TRANSFERS					
<u>-</u>			OUT			
Primary Government				_		
General Fund	\$	0	\$	30,383		
Major Street Fund		0		11,620		
Local Street Fund		14,003		0		
Cemetery Fund		10,000		0		
Fire Fund		11,000		0		
Capital Outlay Equipment Fund		10,000		3,000		
	\$	45,003	\$	45,003		

Transfers are used to: (1) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; (2) move receipts restricted to or allowed for debt service from the funds collecting the receipts to the debt service fund as debt service payments become due; and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

F. Long-Term Debt

1. Primary Government

The following is a summary of debt transactions of the City of McBain for the year ended April 30, 2005:

Governmental Activities:

		Fire Truck Note
Debt Payable at May 1, 2004 New Debt Incurred Debt Retired	\$ 	123,956 0 (47,100)
Debt Payable at April 30, 2005	\$	76,856
Due within one year	\$ <u></u>	0

Debt payable at April 30, 2005 is comprised of the following individual issue:

Equipment Note Payable

\$275,815 note is due May 30, 2008. Interest at the rate of 3.04% is due on May 30, of each year through 2008. Secured by a fire truck. Payments of \$198,959, plus interest have already been made on this loan.

\$ 76,856

NOTES TO FINANCIAL STATEMENTS APRIL 30, 2005

The annual requirements to amortize the debt outstanding as of April 30, 2005, are as follows:

Year Ending April 30,	Principal	Interest	Total
2006	\$ 0	\$ 2,336	\$ 2,336
2007	0	2,336	2,336
2008	0	2,336	2,336

	Φ < 4 000	ф 10 coo	Φ 7.4.600
	\$ 64,000	\$ 10,600	\$ 74,600

NOTES TO FINANCIAL STATEMENTS APRIL 30, 2005

2. Component Units

The following is a summary of debt transactions of the City of McBain's discretely presented component units for the year ended April 30, 2005:

	Instantion
	Purchase
	 Agreement
Debt Payable at May 1, 2004	\$ 44,448
New Debt Incurred	0
Debt Retired	(10,320)
Debt Payable at April 30, 2005	\$ 34,128

Debt payable at April 30, 2005, is comprised of the following issues:

Installment Purchase Agreement payable in annual installments of \$12,475 including interest at 4.85% due April 1 of each year through 2008.

\$ 34,128

Installment

The annual requirements to amortize this debt as of April 30, 2005, are as follows:

Year Ending April 30,	Principal	Interest	Total
2006	\$ 10,820	\$ 1,655	\$ 12,475
2007	11,345	1,130	12,475
2008	11,963	512	12,475
	\$ 34,128	\$ 3,297	\$ 37,425

G. Fund Balance Reserves and Designations

In order to comply with generally accepted accounting principles and meet certain legal requirements, the City has reserved fund balances/retained earnings in various funds. In addition, certain portions of unreserved fund balances/retained earnings have been designated for intended future uses. These reserves and designations are detailed in the following schedule:

NEI	ASSETS

Restricted

Sewer Fund

Debt Service \$______ 40,053

FUND BALANCE/NET ASSETS

Capital Projects Funds

Capital Outlay Equipment Fund City Hall Equipment

\$ 12,246

NOTES TO FINANCIAL STATEMENTS APRIL 30, 2005

IV. OTHER INFORMATION

A. Mortgages and Notes Receivable

Mortgages and Notes Receivable as reported in the component units consist of the following:

Mortgages and notes made to private businesses to encourage development within the boundaries of the Downtown Development Authority and Tax Increment Finance Authority.

B. Due from Other Governments

Amounts due from other governments consist of \$18,044 in state-shared revenues.

C. Deficit Fund Balance

The Fire Fund had a deficit fund balance of \$7,064 as of April 30, 2005. It will be eliminated with revenues during the year ended April 30, 2006.

D. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees, and natural disasters for which City carries commercial insurance.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Mayor and City Council City of McBain McBain, Michigan

We have audited the financial statements of the City of McBain, Michigan, as of and for the year ended April 30, 2005, and have issued our report thereon dated May 27, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the City of McBain's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of McBain's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the City of McBain's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. Reportable conditions are described in the accompanying Letter of Reportable Conditions.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control structure over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that the reportable condition described in the accompanying letter of reportable conditions is a material weakness.

This report is intended for the information of management and federal awarding agencies and passthrough entities and is not intended to be and should not be used by anyone other than these specified parties.

LETTER OF REPORTABLE CONDITIONS

To the Mayor and City Council City of McBain, Michigan

In planning and performing our audit of the financial statements of the City of McBain, Michigan for the year ended April 30, 2005, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure. However, we noted certain matters that we consider to be reportable conditions under standards established by the American Institute of Certified Public Accountants. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control structure that, in our judgment, could adversely affect the organization's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.

The relatively small number of people involved in the accounting functions of the City make it difficult to adequately segregate duties. Segregation of accounting duties is a fundamental method of strengthening internal control. However, in deciding what internal control procedures should be implemented, the Council must consider the costs of implementing them and weigh those costs against the benefits to be derived from their implementation.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses as defined above. However, we believe that the condition described above is a material weakness.

This report is intended solely for the information and use of the Council and others within the organization. This restriction is not intended to limit the distribution of the report, which is a matter of public record.

BAIRD, COTTER AND BISHOP, P.C.
